

## Travel Help

### Making your holiday planning easy!

Here at Jucy we like to give you as much information as possible to make sure organising your holiday is easy so we have put together some useful information for your planning.

#### [Fuel Indicator](#)

### Fuel Indicator

Current prices of **petrol** and **diesel** in New Zealand. This will give you an accurate idea of how much money you will be spending on fuelling your Jucy vehicle!

We have also supplied you with a table of approximate fuel consumption for each of our vehicles and a times & distance map so you can work out how many kilometres you will travel!

We are very happy to advise that all our campervans are diesel which means not only is the price cheaper - they are also more economical to run!

| Vehicle             | Fuel Type | Fuel (Highway) Consumption  |
|---------------------|-----------|-----------------------------|
| <b>El Cheapo</b>    | petrol    | approx 5 litres per 100km   |
| <b>Jucy B</b>       | petrol    | approx 5.2 litres per 100km |
| <b>Jucy Compact</b> | petrol    | approx 5.2 litres per       |

|                          |        |                                       |
|--------------------------|--------|---------------------------------------|
|                          |        | 100km                                 |
| <b>Jucy C</b>            | petrol | approx 5.2<br>- 6 litres<br>per 100km |
| <b>Jucy D</b>            | petrol | approx 7<br>litres per<br>100km       |
| <b>Jucy E</b>            | petrol | approx 6.7<br>litres per<br>100km     |
| <b>Jucy F</b>            | petrol | approx 8.5<br>litres per<br>100km     |
| <b>Jucy G</b>            | petrol | approx 10<br>litres per<br>100km      |
| <b>Jucy<br/>Crib</b>     | petrol | approx 10-<br>12 litres<br>per 100km  |
| <b>Jucy 2<br/>Cruiza</b> | diesel | approx 10<br>litres per<br>100km      |
| <b>Jucy 3<br/>Charga</b> | diesel | approx 10<br>litres per<br>100km      |

**Please Note :**

- ALL VEHICLE CONSUMPTIONS ARE APROXIMATE ONLY, AND MAY VARY FOR DIFFERENT MAKE/MODELS WITHIN EACH GROUP
- All diesel vehicles incur a diesel tax which is payable upon return of the vehicle. This is a government charge which is charged to all people who own or hire a diesel vehicle in New Zealand. This is calculated at NZ\$3.95 per 100km you travel and is charged upon return.
- All above fuel consumptions are based on approximate rates and are a **guideline** only.
- Current petrol / diesel prices are updated weekly in conjunction with **Auckland** fuel prices

 [24 Hour Roadside Assistance](#)

## 24 Hour Roadside Assistance
